

The strength of snocross racing starts with our "little leaguers," the 120cc racers. Just as Little League baseball and Pop Warner football programs develop youngsters for higher levels of play in the respective sports, so does our 120cc racing program. This new rental program is an affordable way to introduce your little ones to the exciting sport of snocross, without the commitment of funds needed to acquire all the necessary gear for a safe and competitive effort. Click on the link below for a printable PDF document detailing the program.
